

CALL TO SCHEDULE AN APPOINTMENT

We are a fully licensed private inspection facility and emissions repair facility. What this means to you is that we can:

▲ Inspect your vehicle using the New Jersey state laws and standards. If your vehicle meets these guidelines, we will place a passed inspection sticker on your vehicle, good for two years on any current vehicle.

▲ Repair any vehicle that did not meet the New Jersey Inspection Standards. If you failed inspection for any reason, we will repair your car or truck and then re-inspect your vehicle for FREE!

Please note: We will not pass vehicles that do not meet NJ State Law. Please do not ask us to “overlook” any part, and no car with tint on the front windows will pass inspection. We would lose our license if we passed these vehicles, so please know in advance that this is not an option. We appreciate your understanding.
